

From

Labour Commissioner-cum- Director of Factories,
Punjab,

To

All the Deputy Director of Factories/
Asstt. Director of Factories in the State of Punjab.

No.5666-86

Dated:Chandigarh the; 17-5-2005

Sub:-

Exemption of Site Appraisal from Site Appraisal Committee for the furnace upto 500 Kg/ heat.

In the 29th meeting of CSA-cum SAC decision on the item No. 29.28 on the subject cited above was taken as under.

“After detailed discussions, it was decided to send following recommendations to the Director of Factories, Punjab in this regard.

1. The small furnaces upto 500 kg/heat capacity, using pig iron/machine turning as raw material and proposed to be installed in the Focal Points/Industrial Areas or other such industrial areas, may be exempted from obtaining the site clearance, as proposed by DOF, with the condition that whenever these industries plans to expand their activity, they will obtain the site clearance from the SAC.
2. The small furnaces, upto 500 kg. as mentioned above, proposed to be installed in the areas, other than the designated industrial areas, may not be exempted from the site approval so as to check the haphazard growth of the industry”.

Accordingly furnaces upto 500 kg/heat to be setup in Focal Point/ Industrial areas or other such industrial areas do not need approval from SAC for site appraisal. But the occupier is required to put up a request to Director of Factories, Punjab, Chandigarh along with the details of manufacturing process/flow chart and raw material to be used also the proof that the site falls in Industrial Area/Zone/Focal Point or Such Designated Industrial Area to get NOC from site angle for site Appraisal.

However when, the occupier enhance the capacity of the plant or change the process, he has to get approval from site appraisal committee from site angel.

Director of Factories,
Punjab.
