To

M/s. Parabolic Drugs Ltd.,
Village Chhachrauli, P.O. Lalru,
Tehsil Dera Bassi, District SAS Nagar.

No. 103348
Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. Parabolic Drugs Ltd., Village Chhachrauli,
P.O. Lalru, Tehsil Dera Bassi, District SAS Nagar (Item No.78.03).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Parabolic Drugs Ltd., Village Chhachrauli, P.O. Lalru, Tehsil Dera Bassi, District SAS Nagar for setting up a formulation plant in the existing premises for the formulation of Tablets @ 2160 Lacs Pcs/Annum, Capsules @ 864 Lacs Pcs/Annum, Injectable @ 518 Lacs Pcs/Annum, Ampoules @ 518 Lacs Pcs/Annum, and also set up Oncology Block for formulation of Injectable @ 65 Lacs Pcs/Annum in addition to the existing bulk drug products, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A(2) of the Factories Act, 1948 subject to the following conditions:-

Condition by PPCB

1. The industry shall comply with the conditions of NOC to be granted by the Punjab Pollution Control Board from pollution angle.

Conditions of DOF

2. All the reactions will be carried out in the closed vessels.
3. There shall not be any manual handling of chemicals used in the industry.
4. The industry will provide Personal Protective Equipments to the workers and will ensure that the workers are using the same.
5. There should be restriction on drinking or eating any substance in the plant.
6. All liquid and solid pollutants will be treated to make them harmless before their disposal.
7. The industry will monitor the different gases in the work environment as per 2nd schedule of Factories Act, 1948.
8. The industry will transfer raw material and finished products in proper manner.
9. The industry will send the information how to store the raw material and submit their material safety data sheets.
10. The record of the operation of scrubber will be kept.
11. Trained and qualified staff will operate the plant.
12. Adequate medical facility should be available in the plant around the clock.
13. The industry will comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
14. The industry will comply with the provision of schedule XI, XVI & XXVI of Rule 102 of Punjab Factory Rules, 1952.
15. The industry will provide fire extinguishing equipments as required under rule 66 of Punjab Factory Rules, 1952.
16. The industry will modify its on site emergency plan, health and safety policy, if there is any change in the organization.
17. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before the commissioning of its project.
18. The industry will be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
19. The building plans of the factory shall be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc., if need be.
20. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.

21. First-Aid Centers and occupational health centers shall be provided as per requirement to combat and manage health hazards from the processes.
22. No harmful by product shall be allowed to be disposed off outside the plant to keep the surrounding environment free and hazardous waste. Waste water shall only be used for plantations inside the premises.

Conditions by DOI

23. The industry will get registered its unit with the concerned Ministry of the Govt. of India.

Condition by CTP

24. The industry will comply with the conditions imposed in the permission for change of land use granted by the Competent Authority vide letter No.7607 CTP(Pb) S)-432 (M) dated 30-09-2009 and will also comply with the conditions of site clearance already granted to the industry under the Factories Act, 1948 and environmental clearance granted under the Press Note 17 (1984 series).

General Conditions

25. The entrepreneur will also comply with the conditions of the earlier environmental clearance issued vide letter No.247 dated 03-02-2009.
26. This site clearance is granted under the Factories Act, 1948 and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
27. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
28. This site clearance is valid for a period of five years from the date of its issuance.

To

M/s.Oliver Engineering Pvt. Ltd.,
Village Sandharsi, Tehsil Ghanour,
District Patiala.

No. 10495

Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. Oliver Engineering Pvt. Ltd., Village Sandharsi,
Tehsil Ghanour, District Patiala (Item No.78.04).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Oliver Engineering Pvt. Ltd., Village Sandharsi, Tehsil Ghanour, District Patiala for the manufacturing of Automotive Castings @ 90 TPD by installing 4 numbers induction furnaces of 4 Ton/heat capacity each (3 working + 1 standby), on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A(2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The project proponent will obtain environmental clearance under EIA notification No.1533 (E) dated 14-09-2006 as amended upto date if need be.
2. The industry shall obtain the NOC from Central Ground Water Authority of India for abstraction of ground water.
3. The industry shall provide adequate and appropriate pollution control systems, so as to ensure the compliance of prescribed standards.
4. The industry shall submit the complete details of the proposed measures for control of air/water pollution before grant of NOC by the Board. The industry will also incorporate the suggestion given by IIT, Roorkee in the design of APCD's so as to ensure that all the emissions are sucked and passed through the APCD to minimize the level of pollution.
5. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that there will be no impact on the quality of working atmosphere inside the industrial shed in which induction furnaces are to be installed, due to emissions from the induction furnaces.
6. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that as to how interlocking of APCD will be done with the operation/machinery of the furnace.
7. The industry shall take all the necessary measures to contain the noise level within the allowable limits.
8. The industry shall get the building plan approved from the competent authority before starting the construction at site.

Conditions of DOF

9. The industry shall provide Air pollution control devices and make adequate arrangements to control metallic fumes and dust generated in the process, so that the gases do not spread in the work environment.
10. The industry shall construct a separate shed for the storage of Scrap/raw material
11. The scrap shall be sorted under the supervision of experienced and qualified person to avoid any explosive material entering into the furnace.
12. The industry will provide personal protective equipments to the workers and will ensure that the workers are using the same.
13. The industry will modify its On-Site Emergency Plan, health and safety policy if there is any change in organization, plant and machinery.

14. The industry shall comply with the provisions of Schedule VIII & XXVII of Rule 102 of Punjab Factory Rules, 1952.
15. The industry shall comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
16. The industry will provide fire extinguishing equipments as required under rule 66 of Punjab Factory Rules, 1952.
17. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before the commissioning of its project.
18. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
19. The building plans of the factory shall be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc. if need be.
20. Charging of iron scrap in to the Induction Furnace will be done by mechanical means such like overhead cranes, trollies etc. and it will not be done manually

Condition by CTP

21. The industry will comply with the conditions imposed in the permission for change of land use granted by the Competent Authority vide letter No.698 dated 30-03-2012.

Condition by DOA

22. The entrepreneur will adhere to the pollution norms of water and soil fixed by Punjab Pollution Control Board and will obtain certificate from central Ground Water Authority regarding abstraction of ground water.

Condition by PCCF

23. The industry will not use the area of forest department for approach to the proposed industrial plant till the final permission is granted by the Govt. of India, Ministry of Environment & Forests, under Forest (Conservation), Act, 1980 except 4.35 m wide already existing approach as per the revenue record.

Condition by CFO

24. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

25. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
26. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
27. No harmful by products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
28. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
29. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
30. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

31. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.

32. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
33. This site clearance is valid for a period of five years from the date of its issuance.

To

M/s. Hind Leathers,
63 Leather Complex, Jalandhar.

No.SAC/449/12/ 10523
Dated: Chd. the; 05-10-12

Subject:- Application for approval of site of M/s. Hind Leathers, 63 Leather Complex,
Jalandhar by SCA-cum-SAC (Item No.78.22).

It is to inform you that your subject cited case was considered in the 78th meeting of SCA-cum-SAC held on 04-09-2012. It was observed by the committee that:-

- Punjab Pollution Control Board vide letter No.4721 dated 06-08-2012 has informed that the industry has proposed to discharge trade effluent to CETP at Leather Complex, Jalandhar, through pre-treatment plant and domestic effluent into PSIEC sewer.
- The CETP at Leather Complex, is not achieving the standards prescribed for such discharges, even for existing units in leather complex, Jalandhar as such new industry, which will contribute to the pollution load to CETP, can not be allowed to establish since CPCB has issued directions u/s 18 (i) (b) of the Water (Prevention & Control of Pollution), Act, 1974, vide No.B-22013/2/PC I-III/2008 dated 02-09-2011 to the Board, to effect not to permit expansion/establishment of industrial unit in areas where associated CETP's are not complying with prescribed standards and where such CETP's do not have adequate hydraulic load capacities. The Board has recommended for refusal of site clearance under the Factories Act, 1948.

In view of the report/recommendation of the Punjab Pollution Control Board, it was decided by the Committee to recommend refusal of site clearance to the industry under the Factories Act, 1948. Hence approval is declined.

This is for your information.

M/s. Krishana Techno Cast,
V.P.O. Nasrala,
District Hoshiarpur.

No.10502

Dated: Chd. the;05-10-12

Subject:- Approval of site to M/s. Krishana Techno Cast, V.P.O. Nasrala,
District Hoshiarpur (Item No.78.25).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Krishana Techno Cast, V.P.O. Nasrala, District Hoshiarpur for manufacturing of tractor parts @ 20 TPD by using pig iron and MS scrap as raw material by installing 2 numbers induction furnaces of 1 Ton heat capacity each and 3 numbers shot blasting machines, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A(2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall submit the complete details of the proposed Air Pollution Control Device to be installed to contain the concentration of pollutants in the emissions within the standards prescribed by the Punjab Pollution Control Board alongwith details of suction system and its adequacy, before grant of NOC.
2. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that there will be no impact on the quality of working atmosphere inside the industrial shed in which induction furnace are to be installed, due to emissions from the induction furnaces.
3. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that as to how interlocking of APCD will be done with the operation/machinery of the furnace.
4. The industry shall comply with the conditions of 'Consent to Establish' (NOC) to be granted by the Punjab Pollution Control Board.

Conditions of DOF

5. The industry shall provide Air pollution control devices and make adequate arrangements to control metallic fumes and dust generated in the process, so that the gases do not spread in the work environment.
6. The industry shall construct a separate shed for the storage of Scrap/raw material.
7. The scrap shall be sorted under the supervision of experienced and qualified person to avoid any explosive material entering into the furnace.
8. The industry will provide personal protective equipments to the workers and will ensure that the workers are using the same.
9. The industry will modify its On-Site Emergency Plan, health and safety policy if there is any change in organization, plant and machinery.
10. The industry shall comply with the provisions of Schedule VIII & XXVII of Rule 102 of Punjab Factory Rules, 1952.
11. The industry shall comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
12. The industry will provide fire extinguishing equipments as required under rule 66 of Punjab Factory Rules, 1952.
13. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before the commissioning of its project.
14. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
15. The building plans of the factory shall be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc. if need be.

16. Charging of iron scrap in to the Induction Furnace will be done by mechanical means such like overhead cranes, trollies etc. and it will not be done manually.

Condition by CTP

17. The entrepreneur will leave 11 feet 9 inch land, out of his own land for widening of approach road from 16 feet 6 inch to 40 feet in front of the premises of the industrial plant.

Condition by DOI

18. The industry will get the products i.e. tractor and auto parts and their capacity endorsed in the SSI Registration Certificate from the General Manager, District Industries, Centre, Hoshiarpur.

Condition by CFO

19. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

20. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
21. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
22. No harmful by products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
23. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.

The Governor of Punjab is pleased to accord approval of site to M/s. Jain Manufacturing Company, 840, Industrial Area-A, Ludhiana for increase in the production capacity of File Clips from 5,000 Pcs/day to 15,000 Pcs/day and add new products i.e. Staplers @ 50,000 Pcs/day, Paper Cutters @ 25,000 Pcs/day and Tape Dispensors @ 10,000 Pcs/day by adding Nickel & Chrome Electroplating and Spray Painting process, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A(2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall comply with the conditions of NOC to be granted by the Punjab Pollution Control Board from pollution angle.
2. The industry shall submit design & drawing of ETP, R. O. plant and electric evaporator to the Punjab Pollution Control Board before grant of NOC.
3. The industry shall submit proper scheme as to how permeate of R. O. will be reused back into the processes of the industry, to the Punjab Pollution Control Board before grant of NOC.
4. The entrepreneur shall install electro-magnetic flow meter alongwith totalizer at the inlet of R. O., outlet of R. O. permeate and outlet of R. O. reject.

Conditions of DOF

5. All the reactions will be carried out in the closed vessels.
6. No fumes from the electrolytic process vessel will come outside without rendering them innocuous.
7. Proper personal protective devices will be given to the workers working in the plant.
8. The floor of the workroom will be impervious to the water.
9. There should be proper water facility for the workers working in the plant.
10. There should be restriction on drinking or eating any substance in the plant
11. The medical examination of the workers will be got done by the certifying surgeon periodically.
12. The industry will comply with the provision of Schedule II of Rule 102 of Punjab Factory Rules ,1952
13. The industry shall comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
14. The workers and the people in the vicinity shall be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
15. The industry will modify its on site emergency plan, Health and safety policy, if there is any change in the organization.
16. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before starting the plant.
17. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
18. The building plans of the factory should be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc., if need be.

Condition by CTP

19. The entrepreneur will leave land, out of his own land for widening of approach road to 40 feet in front of the premises of the industrial plant.

Condition by CFO

20. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

21. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
22. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
23. No harmful by products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
24. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
25. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
26. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

27. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
28. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
29. This site clearance is valid for a period of five years from the date of its issuance.

Backside Focal Point Extn., V. P. O. Gadaipur,
Jalandhar.

No. 10376
Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. R. V. Malleables-II, Backside Focal Point Extn.,
V. P. O. Gadaipur, Jalandhar (Item No.78.42).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. R. V. Malleables-II, Backside Focal Point Extn., V. P. O. Gadaipur, Jalandhar for castings of Auto Parts, Pipe Fittings and Scaffoldings @ 10 TPD by installing an Induction Furnace of 300 Kg/heat capacity, 1 number Cupola Furnace of less than 3 Ton heat capacity, 3 number Oil Fired Annealing Furnaces and 1 number Oil Fired Galvanizing Furnace, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A (2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall submit the complete details of the proposed Air Pollution Control Device to be installed to contain the concentration of pollutants in the emissions within the standards prescribed by the Punjab Pollution Control Board alongwith details of suction system and its adequacy, before grant of NOC.
2. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that there will be no impact on the quality of working atmosphere inside the industrial shed in which induction furnace is to be installed, due to emissions from the induction furnaces.
3. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that as to how interlocking of APCD will be done with the operation/machinery of the furnace.
4. The industry shall comply with the conditions of 'Consent to Establish' (NOC) to be granted by the Punjab Pollution Control Board.

Conditions of DOF

5. The industry shall provide Air pollution control devices and make adequate arrangements to control metallic fumes and dust generated in the process, so that the gases do not spread in the work environment.
6. The industry shall construct a separate shed for the storage of Scrap/raw material.
7. The scrap shall be sorted under the supervision of experienced and qualified person to avoid any explosive material from entering into the furnace.
8. The industry will provide personal protective equipments to the workers and will ensure that the workers are using the same.
9. The industry will modify its On Site Emergency Plan, health and safety policy, if there is any change in the organization.
10. The industry will provide fire extinguishing equipments as required under rule 66 of Punjab Factory Rules, 1952.
11. The industry shall comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
12. The industry will comply with the provision of Schedule VIII & XXVII of rule 102 of Punjab Factory Rules, 1952.
13. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before the commissioning of its project.
14. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
15. The building plans of the factory should be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc. if need be.

16. Charging of iron scrap in to the Induction will be done by mechanical means such like overhead cranes, trollies etc. and it will not be done manually.

Condition by CTP

17. The entrepreneur will leave land in front of the premises for widening of approach road as per provisions of Master Plan.

Condition by CFO

18. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

19. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
20. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
21. No harmful bye products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
22. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
23. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
24. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

25. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
26. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
27. This site clearance is valid for a period of five years from the date of its issuance.

To

M/s. Pallahan Industries,
Backside Tansport Nagar, Adj. Focal Point Extn.,
Jalandhar.

No. 10355

Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. Pallahan Industries, Backside Tansport Nagar, Adj.
Focal Point Extn., Jalandhar (Item No.78.43).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Pallahan Industries, Backside Tansport Nagar, Adj. Focal Point Extn., Jalandhar for increase in the production capacity of Auto Parts and Scaffoldings from 4.800 TPD to 15 TPD by upgrading existing Induction Furnace of 100 Kg/heat capacity, 2 numbers Induction Furnaces of 200 Kg/heat capacity to 300 Kg/heat capacity each and by installing 2 numbers new Induction Furnaces of 300 Kg/heat capacity, 1 number Induction Furnace of 500 Kg/heat capacity and 2 numbers Shot Blasting Machines, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A (2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall submit the complete details of the proposed Air Pollution Control Device to be installed to contain the concentration of pollutants in the emissions within the standards prescribed by the Punjab Pollution Control Board alongwith details of suction system and its adequacy, before grant of NOC.
2. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that there will be no impact on the quality of working atmosphere inside the industrial shed in which induction furnaces are to be installed, due to emissions from the induction furnaces.
3. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that as to how interlocking of APCD will be done with the operation/machinery of the furnace.
4. The industry shall comply with the conditions of 'Consent to Establish' (NOC) to be granted by the Punjab Pollution Control Board.

Conditions of DOF

5. The industry shall provide Air pollution control devices and make adequate arrangements to control metallic fumes and dust generated in the process, so that the gases do not spread in the work environment.
6. The industry shall construct a separate shed for the storage of Scrap/raw material.
7. The scrap shall be sorted under the supervision of experienced and qualified person to avoid any explosive material entering into the furnace.
8. The industry will provide personal protective equipments to the workers and will ensure that the workers are using the same.
9. The industry will modify its On-Site Emergency Plan, health and safety policy if there is any change in organization, plant and machinery.
10. The industry shall comply with the provisions of Schedule VIII & XXVII of Rule 102 of Punjab Factory Rules, 1952.
11. The industry shall comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
12. The industry will provide fire extinguishing equipments as required under rule 66 of Punjab Factory Rules, 1952.
13. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before the commissioning of its project.
14. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.

15. The building plans of the factory shall be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc. if need be.
16. Charging of iron scrap in to the Induction Furnace will be done by mechanical means such like overhead cranes, trollies etc. and it will not be done manually.

Condition by CTP

17. The entrepreneur will leave land in front of the premises for widening of approach road as per provisions of Master Plan.

Condition by CFO

18. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

19. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
20. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
21. No harmful bye products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
22. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
23. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
24. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

25. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
26. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
27. This site clearance is valid for a period of five years from the date of its issuance.

M/s. Gurpal Singh & Kuldip Singh,
Village Kajholi, Doomcheri Road,
District Roop Nagar.

No.SAC/465/12/10516
Dated: Chd. the; 05-10-12

Subject:- Application for approval of site of M/s. Gurpal Singh & Kuldip Singh,
Village Kajholi, Doomcheri Road, District Roop Nagar by SCA-cum-SAC
(Item No.78.45).

It is to inform you that your subject cited case was considered in the 78th meeting of SCA-cum-SAC held on 04-09-2012. It was observed by the committee that:-

- Punjab Pollution Control Board vide letter No.5438 dated 07-08-2012 has informed that the site of the industry was visited by the officers of the Board on 31-07-2012 and it was observed that the industry has partially completed construction of shed and installed cupola furnace without air pollution control device. The conditions of cupola furnace indicated that the industry is operating the same regularly. The Board has also informed that though the site is meeting the general siting guidelines and is suitable, but since the industry has already commissioned the cupola furnace without installing the requisite APCD and without obtaining consent to establish/operate from the Board, as such, notice u/s 31-A of the Air Act, 1981 has been issued to the industry with an opportunity of personal hearing by the Chief Environmental Engineer-3 of the Board. The Board has recommended not to grant site clearance to the industry at this point of time.

In view of the report/recommendation of the Punjab Pollution Control Board, it was decided by the Committee to recommend refusal of site clearance to the industry under the Factories Act, 1948. Hence approval is declined.

This is for your information.

M/s. Haryana Agro Chemicals (India) Unit-2,
Village Bhagwanpur, Tehsil Dera Bassi,
District SAS Nagar.

No.10369

Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. Haryana Agro Chemicals (India) Unit-2, Village
Bhagwanpur, Tehsil Dera Bassi, District SAS Nagar (Item No.78.46).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Haryana Agro Chemicals (India) Unit-2, Village Bhagwanpur, Tehsil Dera Bassi, District SAS Nagar for manufacturing of Unwrought Zinc/Zinc Ingots @ 12 TPD and Sweated Zinc Ash (Residues) @ 18 TPD, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A (2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall submit the complete details of the proposed Air Pollution Control Device to be installed to contain the concentration of pollutants in the emissions within the standards prescribed by the Punjab Pollution Control Board alongwith details of suction system and its adequacy, before grant of NOC.
2. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that there will be no impact on the quality of working atmosphere inside the industrial shed in which zing smelting furnace is to be installed, due to emissions from the said furnace.
3. The industry shall submit a concrete proposal to the Punjab Pollution Control Board before grant of NOC to the effect that as to how interlocking of APCD will be done with the operation/machinery of the furnace.
4. The industry shall comply with the conditions of 'Consent to Establish' (NOC) to be granted by the Punjab Pollution Control Board.
5. The industry shall obtain actual user certificate before starting manufacturing activities, as mandatory under the provisions of the Hazardous Waste (Management, Handling & Transboundary Movement) Rules, 2008.

Conditions of DOF

6. All the reactions will be carried out in the closed vessels.
7. Though the zinc fumes are less toxic, but they must be captured from the source and make them harmless so that work environment and ambient environment do not get polluted and the management shall install the Air Pollution Control Device, which will be maintained in the running condition.
8. There should be no direct contacts of zinc with the workers.
9. There should be restriction on drinking or eating any substance in the plant.
10. There should be a doctor for surveillance of the worker's health.
11. There shall not be any manual handling of chemicals used in the industry.
12. Separate eating place for the workers should be maintained in good condition.
13. The workers all the time be provided with proper personnel protective equipments so that they may not come in contact directly with zinc.
14. The bath and washing facilities in the factory should be maintained in good condition.
15. There should be an arrangement for monitoring of zinc fumes or zinc oxide in the work environment.
16. The industry will modify its On-Site Emergency Plan, Health and Safety Policy if there is any change in the organization.
17. The industry will comply with the provision of Schedule XVI of Rule 102 of Punjab Factory Rules, 1952.
18. The industry shall submit compliance report of the condition of approval of site to the Director of Factories, Punjab after commissioning of its project.

19. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of condition of approval of site.
20. The building plans of the factory shall be got approved from the Director of Factories, Punjab before starting the construction and other concerned department such as PUDA and CTP etc., if need be.

Condition by CTP

21. The entrepreneur will comply with the conditions imposed in the permission for change of land use granted by the Competent Authority vide Memo No.1388 STP (S)/SS-11 dated 06-06-2012.

Condition by CFO

22. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

23. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
24. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
25. No harmful by products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
26. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
27. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
28. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

29. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
30. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.

M/s. Nawanshahar Power Pvt.Ltd.,
An SPV of M/s. Saraya Industries Ltd.,
Inside Nawanshahar Co-Operative Sugar Mills,
Banga Road, Nawanshahar.

No. 10425

Dated: Chd. the; 05-10-12

Subject:- Approval of site to M/s. Nawanshahar Power Pvt.Ltd., An SPV of M/s. Saraya Industries Ltd., Inside Nawanshahar Co-Operative Sugar Mills, Banga Road, Nawanshahar (Item No.78.55).

Kindly refer to the subject noted above.

The Governor of Punjab is pleased to accord approval of site to M/s. Nawanshahar Power Pvt.Ltd., An SPV of M/s. Saraya Industries Ltd., for setting up of Bagasse based Co-Generation power plant of 15 MW capacity inside the premises of M/s. Nawanshahar Co-Operative Sugar Mills, Banga Road, Nawanshahar and install 1 number boiler of 70 TPH steam generation capacity to operate the said power plant, on the recommendation of State Competent Authority-cum-Site Appraisal Committee, constituted under Section 41-A (2) of the Factories Act, 1948 subject to the following conditions:-

Conditions by PPCB

1. The industry shall not discharge any trade effluent and shall provide proper arrangements to re-circulate the entire cooling water/RO rejects and other trade effluents.
2. The industry shall close down/not operate the existing boilers of sugar mill, Nawanshahar after the installation of proposed boiler of capacity 70 TPH.
3. The industry shall make proper arrangements for disposal of fuel ash in environmentally sound manner.
4. The industry shall provide proper covered storage area for storage of the fuel to be used to avoid nuisance/air pollution in the vicinity.
5. The industry shall provide electro magnetic flow meters at the source of water supply and the lines to re-circulate the trade effluents.
6. The industry shall provide online monitoring equipment with stack after APCD of the boiler.

Conditions of DOF

7. The industry will provide safety equipments to the workers.
8. The industry will make appropriate arrangements for fire extinguishers.
9. The industry will modify its on site emergency plan, health and safety policy if there is any change in the organization.
10. The industry will comply with the provisions of Factories Act, 1948 and Punjab Factory Rules, 1952.
11. The building plans of the factory shall be got approved from Director of Factories, Punjab before starting the construction and other concerned departments such as PUDA and CTP etc., if need be.
12. The industry will make adequate and appropriate arrangement so that there is no generation of any static charge.
13. The unit will be operated under the supervision of experienced staff only.
14. The industry shall submit compliance report of the conditions of approval of site to Director of Factories, Punjab before commissioning of its project.
15. The industry shall be inspected after commissioning of its proposed project to monitor the compliance of conditions of approval of site.
16. First Aid Centers and Occupational Health Centers should be provided, as per requirement, to combat and manage health hazards from the process.
17. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
18. All accessible metallic portions of electrical plant or apparatus which though normally not forming of an electrical circuit may become alive, accidentally, shall be protected by an insulating covering or by other adequate means or shall be connected to earth by a conductor of adequate size.
19. Adequate working space and means of access, free from danger shall be provided for all apparatus which have to be worked or attended to by any person.
20. Every switch board having bare conductors normally so exposed that they may be touched shall be suitably fenced or enclosed.

21. All conductors and apparatus exposed to the weather, wet-corrosion, inflammable surroundings or explosive atmosphere, or used in any process or for any special purpose other than for lighting or power shall be so constructed or protected and such special precautions shall be taken as may be necessary to prevent danger in view of such exposure or use.
22. Adequate precautions shall be taken to prevent any conductor or apparatus from being accidentally or inadvertently electrically charged when persons are working there on.
23. Instructions, both in English and in the vernacular of the district, as to the treatment of persons from electric shock, shall be affixed in all premises where electrical energy is generated, transformed, converted, switched, controlled regulated distributed or used.

Condition by CTP

24. The industry will comply with the conditions imposed in the permission for change of land use granted by the Competent Authority.

Condition by DOA

25. The entrepreneur will adhere to the pollution norms of water and soil fixed by Punjab Pollution Control Board and will obtain certificate from Central Ground Water Authority regarding abstraction of ground water.

Condition by CFO

26. The entrepreneur will make adequate fire fighting arrangements as provided in Part-IV of the National Building Code 2005, Indian Standard Code and as per the advice of the concerned Fire Officer and will obtain fire safety certificate from the concerned Fire Officer, before commissioning of the project.

Conditions by DHS

27. The workers and the people in the vicinity should be informed about the hazards involved and methods to be adopted to prevent the harmful effects, if any.
28. First Aid Centers and Occupational Health Centre should be provided, as per requirements, to combat and manage health hazards from the processes.
29. No harmful by products should be allowed to be disposed off outside the plant to keep the surrounding environment free from hazardous effects of wastage.
30. Names and connecting telephone numbers of nearby health institutions should be displayed on the board and made known to all concerned in the vicinity of the plant also.
31. SPM (Suspended Particulate Matter) should not be more than the prescribed limit at any stage to avoid exposure to the people in the vicinity.
32. Periodic inspection by the competent authority of the health department will be undertaken for the enforcement of the stipulated conditions given above. Appropriate action under rules will be taken on infringement of these conditions.

General Conditions

33. This site clearance is granted under the Factories Act and the rules framed there under as amended from time to time. The industry will obtain clearances/ approvals from other departments under any other Act/rules, if need be.
34. This site clearance does not preclude the institution of any legal action nor relieve the applicant from any responsibilities or penalties to which the applicant is or may be subjected under the provisions of Factories Act or any other Act/rules.
35. This site clearance is valid for a period of five years from the date of its issuance.
